

How to add a Book Resource.

Why would you want to do this?

- Books are a good device to provide a simple way that younger students can access resources and information
- The Book Resource is a plugin that can be added to your Moodle. Most of our installations include this by default. If you cannot find it please contact us.

You must be logged in to your Moodle and inside your Moodle Course/Classroom as either a Teacher or an Administrator.

1. Click the Turn Editing On button. Decide which Topic area that you want to put the Book Resource, click the **Add a resource** drop-down list and select **Book**

2. Type the name. What you type here is what the student may see to click on to open it. And then a short description as to what the recourse is to be used for.

Adding a new Book to topic 3

General

Name* **Type the name of the Book**

Summary* **And a short description**

Trebuchet 1 (8 pt) Lang **B I U S**

Path:

3. Then scroll down, decide on the option settings and click **Save and return to course** or **Save and display** to set up the first chapter

Chapter Numbering **Click on the ? symbol for setting information**

Disable Printing

Custom Titles
